Jatin Sharma

Software Developer

📍 Bareilly, UP, India   ✉ me@j471n.in   📱 +91 7060133464

Summary

I am web developer with expertise in React.js and Next.js. With experience building and maintaining web applications, I use React, Next.js, and Tailwind CSS to build web applications, and I am always looking for new challenges and ways to improve my skills. In addition to my front-end development skills, I am also familiar with Python, C++, Firebase.

Experience

Software Developer — (KonnectNXT)   📅 Feb 2023 - Present

- At KonnectNXT, I work as a Software Developer. My main responsibility is to develop and enhance web applications.

- Using Django and Next.js, I create robust and efficient Back-end systems that power our web applications. I specialize in writing clean and maintainable code using Python, ensuring the applications are scalable and easy to maintain.

- In the Front-end, I utilize React.js to build dynamic and user-friendly interfaces. This allows us to create engaging and interactive experiences for our users.

- Additionally, I am experienced in API development, which involves integrating different systems and services to enhance the functionality of our applications. I also work with databases, particularly MySQL, to ensure optimal performance and efficient data storage.

Blogger — (DEV Community)   📅 Oct 2021 - Present

- I have developed a deep understanding of web development and other web technologies such as React.js, Firebase, Next.js, JavaScript, etc and have gained strong research and writing skills.

- My blog has allowed me to share my knowledge and insights with a wider audience, and I have gained a reputation as a reliable and informative source of information on these topics.

- As a blogger, I have published **110+ articles** and have gained **675K+ views** on my blog. I have been recognized as a **top 7 author** on DEV twice, demonstrating my ability to consistently produce high-quality and engaging content.

- As a **Trusted Member**, I am responsible for upholding the platform's Code of Conduct and ensuring the quality of content and interactions within the community.

Education

Bachelor of Technology (Computer Science)   📅 2019 - 2023
Future Institute of Engineering & Technology   CGPA : 8.06

Intermediate   📅 2017 - 2019
C. B. Ganj Inter College   Percentage: 73 %

Skills & Tools

Languages

JavaScript   TypeScript   HTML   CSS   Python   C/C++

Tools & Technologies

Next.js   React   Tailwind CSS   Framer Motion   MySQL   Firestore   Django

Express   SQLite3   NextAuth.js   Node.js

Featured Project

Google Docs With Next.js   🔗 GitHub

Next.js   Tailwind CSS   Firebase   Draft.js   NextAuth.js   PWA

- It's a web app similar to the **Google Docs** that lets you create documents.
- I have used Firebase to store all the user's data and NextAuth.js to Authenticate users.
- **Features**: Auto Save, Dark Mode, Real time Data, Document Searching, PWA Support etc.

React Chatroom

React   Tailwind CSS   Firebase

- This is a group chatroom where anyone can login with their Google Account and join the chat room and send messages and images to the audience.
- **Features**: Real Time Chat, Images Support, Google Authentication etc.

Google Search Clone with Next.js

Next.js   Tailwind CSS   Google Custom Search API

- This web app will show you the result of what you search. Results will be same as google shows.
- It uses Google Custom Search API to fetch the result and then present it to you with pagination.
